Doug, Thank you for the update. Hope everything get resolved soon. I am sure it is a tough situation.

Sincerely,

John

Good Morning John, yes the government shutdown has stopped work on most matters, including these permits. I don't know where we were at when the shutdown occurred. When the team returns we will get together to discuss how we move forward on permits they were working on before the shutdown.

Darcy and Doug,

Just reaching out to see where everything stands, as know that the government shutdown is effecting EPA. I have heard messages from Doug and Valois on their voicemail and sorry to hear they are out of the office during the government shutdown.

If you are in the office, hope you can give us an update on how this may be effecting work on our permits.

Sincerely,

John

**Subject:** Powertech's Draft Approach to Aquifer Exemption Boundary for Dewey-Burdock Class III UIC Draft Permit

Mr. Benevento and Mrs. O'Connor,

Please see the attached letter describing Powertech's draft proposal regarding procedures for locating the Aquifer Exemption Boundary.

We have also included a draft map to help illustrate the proposal.

Your feedback on the approach would be greatly appreciated.

Sincerely,

John
